

This Week in the Safari Class

December 2, 2017

Mrs. Isaac

This week in Math we have been working on real world application of decimals through activities on planning a trip by car or airplane and creating a Thanksgiving meal for 14 people. The students have been so engaged and very determined to complete the packet. They are practicing adding, subtracting, and multiplying decimals as well as solving complex word problems. So proud of their effort!

In Science we did an activity called "Why Would a Hawk Move to the City?" Students played a game called "Eat or Be Eaten" where they had to build food chains. They

In English-Language Arts we are learning about corn as an alternative fuel source. The students have read opposing viewpoints as to whether we should be taking something that can be food for people and animals and using it instead for fuel.

A new book order went home on Tuesday and are due back on Wednesday, December 6th. I will be sending this order in quickly so that the books can arrive before Christmas. Please let me know if you order books that are meant to be a gift. I will make arrangements to get them to you without your child knowing.

Our Field Trip to the Roseville Utility Center is this Wednesday, Dec. 6th. We will be leaving the school at 10:00 and will return around 3:00. Please make sure to send your child with a lunch if you did not request one for them.

I enjoyed meeting all of you during conference week. Thank you for all that you do to support your child's success at school.

For the Holiday Silent Auction and Pancake Breakfast on December 16th, our class will be building a "Harry Potter" basket. Please send in items to fill our basket. Some suggestions: Harry Potter beanie, socks, candy, games, t-shirts, stickers, etc.
